

AUSET – Intelligent Solutions Innovative Strategies: Global Impact

March 2021

RE: The Black Church and Covid-19: Faith Leaders Forum

Dear Faith Leaders,

I bring you greetings in the name and year of Our Lord, 2021. Please allow me to introduce myself. My name is Michele D Miller. I am a recent graduate of Samford University Cumberland School of Law (Birmingham, AL 2020) with a Master of Science in Health Law and Policy. I am the Community Leader and Health Advocate for **AUSET – Intelligent Solutions Innovative Strategies**. I am writing to you with a **sense of urgency** centered on **Covid-19 and the Black community**. We know mainstream media is not a source of truth to the Black community concerning this very public outbreak of coronavirus and its many variants. We know because our beloved community has been dying from Covid at an alarming rate as opposed to other ethnicities in this country. Hence, the birth of AUSET-Intelligent Solutions Innovative Strategies.

We founded AUSET- Intelligent Solutions Innovative Strategies with one goal in mind: to provide a high-quality, smart, and reliable health education and biosafety consultancy group. We provide events to expose our community to biosafety protocols for daily living, mental healthcare, and wellness education during this unprecedented outbreak of COVID-19, and varied mutations. Our passion for health, wellness, and care in-light of social change has driven us from the beginning and continues to drive us into the future.

The future. The future of our community is at a higher risk because of long-term pre-existing conditions, excessive comorbidities, and lack of access to quality healthcare, pre-screening as well as vaccine follow-up surveillance. We need faith leaders to become the gatekeepers of health, and wellness within the faith community to protect the most vulnerable. Thus, allow me to introduce Dr. Lane Rolling, MD., a world-renowned virologist, and infectious disease specialist, and Dr. Patricia Jones-Blessman, PhD., clinical psychologist, who specializes in traumatic/tragic life events counseling, and therapy. As a team of health experts, and professionals, we have a true passion and desire to make the science of COVID relatable to a broad section of our population,

while sharing knowledge on biosafety protocols for daily living. We provide a safe space to speak directly to an expert in the field of communicable viruses and diseases.

The objective of this event is to create a community of faith leaders who are equipped with the knowledge to explain the principles of viral spread and biosafety procedures to help navigate your parishioners through this very public outbreak of Covid-19 for **FREE!** Come with questions, leave with answers. We are extending an invitation to **join us** in this special event created specifically for and limited to Black Faith Community Leaders.

WHAT: Black Church and Covid-19

WHEN: Thursday, April 8, 2021

TIME: 7 PM CST

To **RSVP** for this special event, please use the link below:

Thank you for taking the time to consider our invitation and we hope to see you soon!

Please visit our website at www.uset-isis.org for more information about the firm and our weekly free zoom events open to the public. Like all of you, we want to heal and move on from this once-in-a-lifetime calamity. With the help of Our Lord, we will not only survive we will thrive.

Happy Resurrection Day! Like Christ, **WE will RISE!** As a people together **WE will RISE!**

Humbly submitted,

Michele D Miller
