African American Ministry Boost Grant Initiative

The Theology Formation and Evangelism department and the Racial Equity Woman's Ministry are working together on a collaborative effort to offer an **"African American PCUSA Ministry Boost" grant**. These grants are to exclusively support African American congregations and target African American new worshipping communities.

The grants are looking to support current media/ technology needs as well as churches that need a boost in supporting on going active ministry programing. *(The grants ***are not*** designated for administrative, budgetary, or capital needs).

However, the grant initiative will support at least 17% of African American congregations that will apply. The grant range is from \$1000 .00 to \$ 2500.00 depending on ministry and programmatic support.

****Please see attached REWIM application form, complete and return by deadline date of Friday November 5th at 12:00noon. (Michael.moore@pcusa.org)***

We are excited about this initiative, the ingenuity, and the collaborative effort of these two departments that will allow this type of congregational support to occur. Special thanks and gratitude to our colleagues in the Theology Formation and Evangelism Department and the broader Presbyterian Mission agency family.
